Policies for Unscheduled Closing

The pool manager and/or manager on duty are authorized to close the Paxton Pool under the following conditions:

- The pool and pool deck will be cleared for a period of 30 minutes any time lightning is spotted. Patrons will be allowed to re-enter the pool once 30 minutes has elapsed without further thunder or lightning.
- The pool will close if storm/weather conditions create a clearing of the pool and there is no sign of weather clearing.
- The pool will not open if the air temperature is below 70 degrees Fahrenheit at the scheduled opening time. The pool will close if the air temperature falls below 70 degrees after opening.
- The pool will be cleared if a situation arises due to a fecal or vomiting incident. Proper chemical/sanitation adjustments will be taken and depending on the nature of the incident, the pool would re-open between a 30 minute and 36 hour timeframe.
- **The pool will close if after two (2) hours after scheduled opening, the number of paid patrons is less than 20. If at some point after two hours after the scheduled opening, the number of paid patrons falls under 20, the pool will close at the manager's discretion.**
 - *If this situation were to arise, the pool manager would attempt to give those patrons in attendance at least a "15 minute warning" of the potential closure.**
- The pool will be closed when a situation arises that would jeopardize public health or safety of people in attendance.
- Refunds will not be given in the event of the aforementioned early/unscheduled pool closures. A raincheck will be granted at the discretion of the pool manager.
